Paper Mill Plant from the US to the Middle East

Challenges/Obstacles

We coordinated and oversaw every step of the move of a paper plant from Snowflake, AZ, to Saudi Arabia. Vector's highly trained operations team worked with with different suppliers to guarantee timely delivery as well as to minimize the project's overall costs.

Resolution

After more than 30 containers, three months of planning, and almost 45 days of execution, we were able to load and ship all the different parts, resulting in a successful delivery.

Tropical Cyclone Idai Relief to Zimbabwe

Challenges/Obstacles

The client asked us to manage a complete door-to-door move of medical supplies to Harare, Zimbabwe.

For this shipment, we needed duty exemption on certificates and import licenses from the consignee due to a tax exception. The agent at the destination also requested an exoneration letter and original documents before the cargo arrived.

Resolution

The container of equipment and supplies was a huge help for the doctors and nurses that were assisting with the day-to-day care of the victims of the disaster.
