

Certified

Corporation

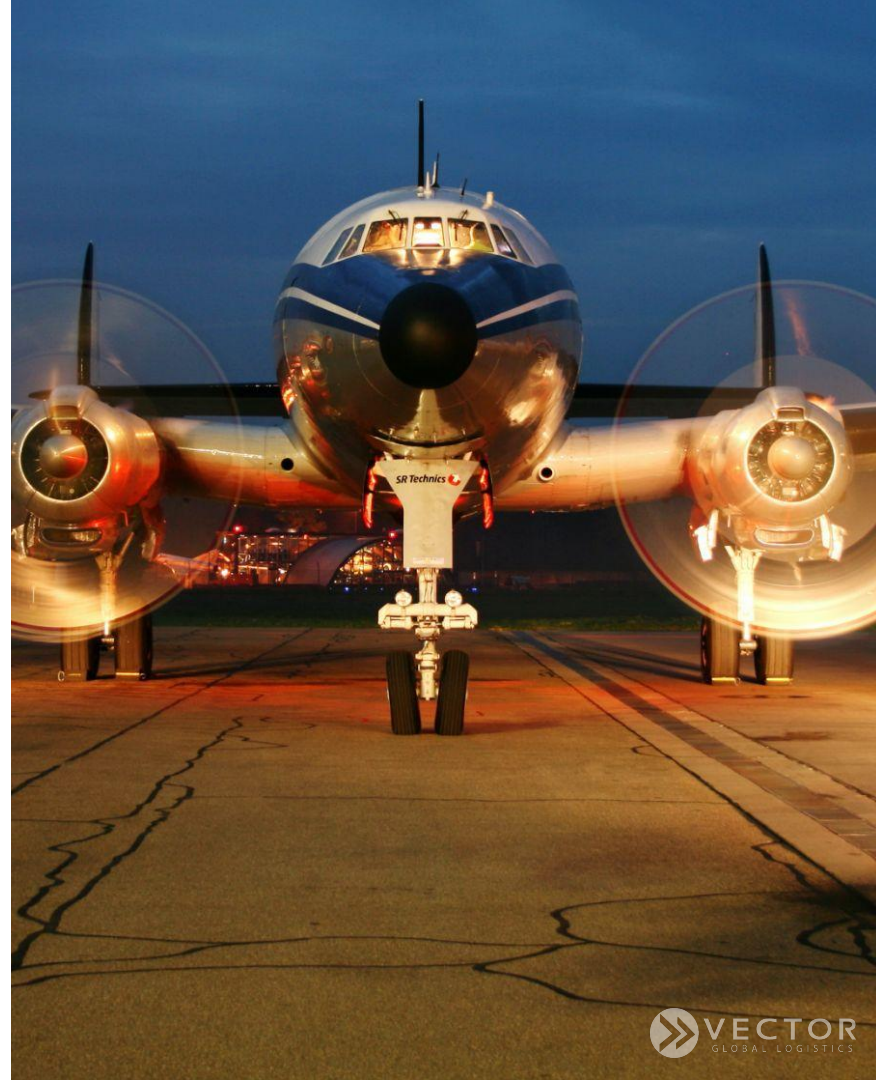

We are pleased to offer a carbon offset program to support your sustainability goals.

Sustainability + Supply Chain

The Vector team has been committed to social and environmental impact from the start, and we are excited to offer another way for our company and our clients to continue to make a difference.

It is our hope that you will join us on this important journey, not just because of corporate social responsibility or public pressure, but because it is the right thing to do.

We all share this planet and look forward to partnering with you so that we can all enjoy it as long as possible.

Carbon Offsets 101

Carbon offsetting is a process by which funds are directed to projects that help reduce global emissions. Companies or people often buy carbon offsets instead of reducing their carbon footprints, or they do both to make their emission reduction efforts go further.

Carbon offsetting has benefits at both ends of the process: It helps environmental projects that can't secure funding on their own and it gives businesses increased opportunity to reduce their carbon footprint.

We Have Chosen to Partner with ClimeCo

ClimeCo is leading the fight against climate change, making it **easy and affordable** for any individual, business or organization to reduce and offset their climate impact and hasten the transition to a clean energy future.

»» Formerly Carbonfund.org, they were founded in 2003, and among the first carbon offset programs globally.

»» They are leading US climate change solutions as a 501c3 non-profit.

»» They have a Guidestar Platinum Seal of Transparency and a 100 rating on Charity Navigator.

»» They have over 3,300 global business partners who are supporting a clean energy future.

ClimeCo Projects

Every project is third-party validated and verified to meet the highest standards.

Energy Efficiency

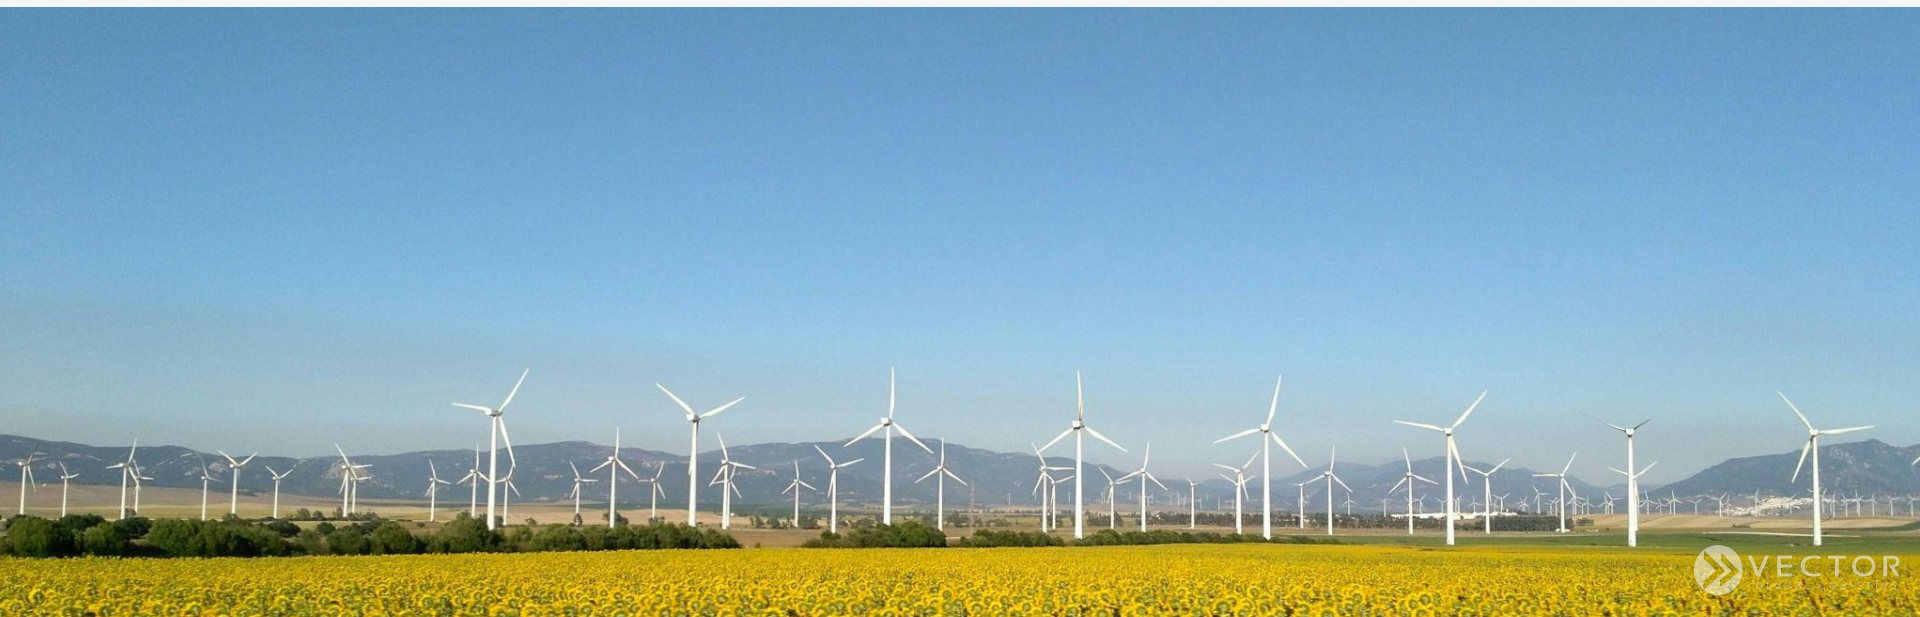

These projects reduce energy use now, providing the most cost-effective ways to reduce carbon emissions.

Forestry

Forest conservation removes CO₂ from the air and into trees and soil, helping communities and wildlife.

Renewable Energy

Reduce carbon emissions, spur investment in clean technologies, and create a low-carbon economy.

Why Should Your Company Participate?

Everyone has a role to play in solving the climate change crisis.

Consider both practical and social implications:

The Statista Research Department states that the entire transportation industry makes up around 14%, making transportation the second-largest source of emissions worldwide. ([Source](#))

According to a February 2023 article by McKinsey, “In a 2020 McKinsey US consumer sentiment survey, more than 60 percent of respondents said they’d pay more for a product with sustainable packaging. And a recent study by NielsenIQ found that 78 percent of US consumers say that a sustainable lifestyle is important to them.” ([Source](#))

Case Study

US to Nigeria

Vector shipped two 40' containers from Savannah, United States, to Lagos, Nigeria, which included 221 miles of ground transportation and 6,294 nautical miles.

Cost for Carbon Offset: \$29.19 ← EXTREMELY AFFORDABLE

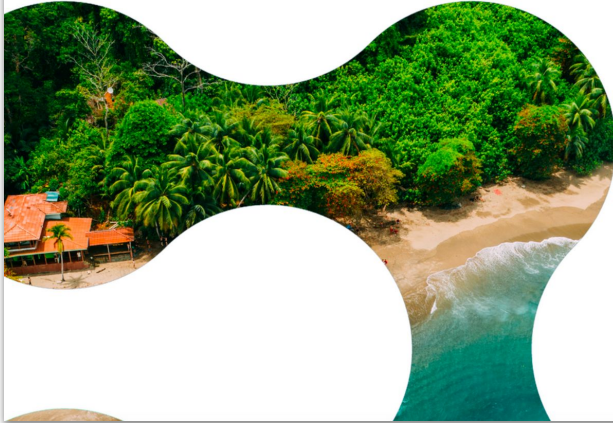

We are proposing an optional fee for every shipment, which will be calculated on top of your normal quote. We hope you will take advantage of this new service and contribute to the betterment of our environment.

ClimeCo was formerly Carbonfund.org

Your Carbon Offset Certificates

CARBON OFFSET CERTIFICATE

PROUDLY PRESENTED TO
Vector Global Logistics

FOR OFFSETTING
206
Tonnes of CO₂e

DATE
February 6, 2024

Your carbon offset purchase supports
third-party verified greenhouse gas emission
reduction projects around the world.

example certificate

For every shipment that you choose to offset your carbon, you will receive a certificate by email.

These certificates will help you calculate your impact throughout the year, and you can include the totals in your annual sustainability or social impact report.

Please note: Vector is not making any money off of this service. We are simply passing along the Carbonfund.org cost to you and streamlining your ability to add carbon offsets to your shipping at an affordable rate.

“At Vector, we believe that a few caring people can and will change the world. And the truth is, we only have one world to share. So, we are compelled to make clean, sustainable shipping a reality.

Doing the right thing is a must, and there’s no time to waste. Together, we can make a difference both now and for generations to come. Please join us.”

- Enrique Alvarez, Managing Director

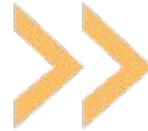

Next Steps

Tell your sales contact that you're interested in this program.

Offset pricing will be included in your next quote.

You decide if you'd like to move forward.

You receive an offset certificate for your records.

**Thank
You!**

We look forward to supporting your sustainability goals!
